

***Without your story we have no voice...***

Patient stories are an important way of getting the message out there. And this is where we really need your help. Maybe you would be happy to share your story via our website, or be interviewed by a journalist for the health section of a magazine or national newspaper. Whatever you do will help us raise awareness of arrhythmias.

**Patient Story Form**

*If you would be happy to share your story to help raise awareness of cardiac arrhythmias, please complete the form below and email this to [joanna@heartrhythmcharity.org](mailto:joanna@heartrhythmcharity.org) or post it to Arrhythmia Alliance, PO Box 3697 Stratford upon Avon, Warwickshire, CV37 8YL.*

By completing this form you are simply saying that you would consider sharing your story. We would contact you to talk through in more detail about what you would be happy to be involved in with no pressure to be involved if you change your mind!
